Xarelto®: Simply Protecting More Patients

Compelling evidence of superior protection against DVT, PE, and death, with safety comparable to enoxaparin1, 2, 4-7

THAT IS SUPERIOR
• Significant reduction vs enoxaparin in total DVT/PE2, 4-7

THAT IS DEPENDABLE
• Good safety profile including a low rate of major bleeding1, 4-7
• No evidence of drug-induced liver injury attributable to Xarelto1, 4-7

THAT GIVES CONFIDENCE
• Ensures patients are protected from hospital to home3

THAT IS ONCE DAILY
• One 10-mg tablet, once daily3
• No dose adjustment necessary3

THAT IS SIMPLICITY
• One 10-mg tablet, once daily3
• No dose adjustment necessary3

…in adult patients undergoing elective hip knee replacement surgery.
