Social Programme

Opening Ceremony & Welcome Reception
The Opening Ceremony and Welcome Reception on Tuesday, 31 August, from 17:30 onwards, will be held at the Swedish Exhibition & Congress Centre.

Fun Night
Join us on Wednesday, 1 September at 19:00 at Restaurang Trädgår'n for a fun-filled night organised especially for young conference participants and those young at heart.

Presidents’ Dinner
The Presidents’ Dinner will be held on Thursday, 2 September, starting at 19:00, and promises to be an entertaining and unforgettable evening for everyone. It will include top-class entertainment followed by dancing. Don’t miss it!

Accommodation

Discover the various hotels available around the Swedish Exhibition & Congress Centre via the SICOT website. For any queries regarding accommodation, please contact Congrex Sweden AB:
Fax: +46 31 708 60 25
E-mail: sicot.hotels@congrex.com

Instructional Courses (at 28 April 2010)

The deadline for course registration is 25 July 2010 and the fee per course is EUR 50. If you wish to attend a course, please submit your registration request via email to congress@sicot.org.

1. Trochanteric Hip Fractures
Why do we so often see failures with this “simple” and common fracture? Emphasis on problem recognition, failure prevention and salvage procedures. Presentations and practical sawbone exercises.

2. Ankle Fractures
Why do we so often see failures with this “simple” and common fracture? Emphasis on problem recognition, failure prevention and salvage procedures. Presentations and practical sawbone exercises.

3. The Elbow Engaging Forearm Fracture
Proximal fractures of the forearm that engage the elbow joint cover a wide spectrum of fractures - from the simple olecranon fracture to the complex fracture dislocation and Monteggia equivalents. Presentations and practical sawbone exercises.

4. Shoulder Arthroplasty
A seemingly simple procedure with several pitfalls, and in the fracture setting a demanding procedure. Live surgery (Bielund) (with audience interaction) and thorough discussion.

5. ACL-reconstruction using different surgical procedures with focus on the double-bundle technique
Technical considerations and discussion. A film is specially prepared for this tutorial.

6. Arthroscopic procedures in gleno-humeral instability
Technical considerations and discussion. A film is specially prepared for this tutorial.

7. Cementing Techniques in Hip Arthroplasty
Cemented hip arthroplasty. Presentations and practical sawbone exercises with evaluation.

8. Hindfoot Osteotomies
Hindfoot osteotomies are common in the treatment of hindfoot varus and valgus deformities of different etiologies. The purpose of this instructional course is to present the different indications, the operative planning and the effects of these osteotomies on foot biomechanics. Presentations and practical sawbone exercises.

9. TEN-nailing in Paediatric Fractures
Treatment of fractures with TEN-nails with emphasis on technical aspects. Presentations and practical sawbone exercises.

10. Conservative vs percutaneous vs open surgical treatment of thoracolumbar fracture
The course will discuss the indications and timing of conservative and surgical treatment of thoracolumbar fracture, and also present the new technique of percutaneous fixation. The workshop includes hands-on training in decompression and reduction techniques and pedicle screw fixation. Presentations and practical sawbone exercises.

11. Periprosthetic fractures of the femur
The course will discuss classification of these fractures, describe modern treatment options and provide solutions for the difficult cases. Presentations and practical sawbone exercises.
Welcome to Gothenburg, Sweden, in 2010!

It is a pleasure and an honour to invite you to the Seventh SICOT/SIROT Annual International Conference on 31 August - 3 September 2010 in Gothenburg, Sweden (Göteborg in Swedish). Gothenburg is located in the heart of Scandinavia on the west coast of Sweden, it is a leading European event venue and English is widely spoken in the city. The conference will be held at the Swedish Exhibition & Congress Centre, which is centrally located close to hotels, restaurants and shops. The congress centre has an in-house hotel with more than 700 rooms and there are more than 6,000 hotel rooms within walking distance of the congress centre, ranging from budget category to first-class hotels. Gothenburg can also offer a wide variety of activities for conference delegates and accompanying persons, including tours of the beautiful archipelago, golf and cultural events.

The Seventh SICOT/SIROT Annual International Conference will be organised as a combined meeting with the Swedish Orthopaedic Association (SOF) and a wide range of topics will be covered in the scientific sessions and by plenary speakers, so there will be something of interest for everyone. The commercial exhibition will be comprehensive. We are working hard to make the conference a high-quality scientific and educational event, as well as a memorable gathering in the city of Gothenburg.

On behalf of the Local Organising Committee and the Swedish Orthopaedic Association, I would like to extend a warm welcome to you and hope that you will come to Gothenburg and the Seventh SICOT/SIROT Annual International Conference on 31 August - 3 September 2010. We look forward to seeing you at the conference.

Kind regards,

Prof Björn Rydevik
Conference President

SICOT Executive Committee
