

SICOT Educational Day

The SICOT Educational Day is a new initiative by the SICOT Young Surgeons Committee. The aim is to provide the surgeons in training a comprehensive review of a topic/subject which would be useful for them in their daily practice and towards their exam. The theme chosen for this year is 'The Hip'. Mr Vikas Khanduja from Cambridge, United Kingdom, will be chairing this event and he has brought together an excellent Faculty from around the world to lecture on their area of expertise for the same. Places are limited so book early to avoid disappointment.

Programme

Chairman: Mr. Vikas Khanduja (United Kingdom)

Time	Topic	Lecturer
